YOUR JOB

Many of us have a strong tendency to belittle the job we have in life to do. We attach little importance to the place we occupy in the pattern, as a whole.

In every organization, in every community, in every home and here in your school there are many different kinds of jobs that must be done. Regardless of what your job is, just remember that it is important and do that job well. The spark plug is a very small part of any car but the efficient operator of that car depends to a marked degree on the spark produced by this small plug.

The following poem is very appropriate to all of us in respect to our own job:

Wherever you're working - in
office or shop,
And however far you may be
from the top-
And though you may think you're
just treading the mill,
Don't ever belittle the job
that you fill;
For, however little your job
may appear,
You're just as important as
some little gear
That meshes with others in some
big machine,
That helps keep it going-
though never is seen.
They could do without you-
we'll have to admit-
But business keeps on, when
the big fellows quit:
And always remember, my lad,
if you can,

The job's more important-(oh yes)
than the man:
So if it's your hope to stay off
the shelf,
Think more of your job than you
do of yourself.
Your job is important-don't think
it is not-
So try hard to give it the best
that you've got;
And don't think ever you're of
little account-
Remember, you're part of the
total amount.
If they didn't need you, you
wouldn't be there-
So, always, my lad, keep your
chin in the air.
A digger of Hitches, mechanic,
or clerk-
THINK WELL OF YOUR COMPANY,
YOURSELF AND YOUR WORK.

SIERRA REDSKINS

ARE WE DOING OUR PART?

** **** **

There are many contributions, which young men and young women of school age, as well as adults, can make during normal times toward development and their services to the home and community. Then at a time, when our country is at war, those contributions which all of us can make are increased many times.

We, as American people have many privileges which the people of other continents do not enjoy and we desire to preserve those privileges, but in order to bring this about, we must learn to sacrifice during a time of need; we must learn to give, for there are many less fortunate than we within, our midst and we must learn to be economical with our time, food and clothing.

So let us all do without a few of the luxuries of life and by so doing, we will have more to give. Our gift may be small, but remember, that small contributions, when gathered together, make large ones.

There is plenty for all, but we must be economical and not use more than our share and by so doing, we will do our part.

LET'S BE CONSTANT and COMBINED IN OUR EFFORT.

SIERRA AGGIES NEWS

The members of the Sierra Aggies have received many compliments on their fine work during the Christmas season. The Christmas Tree Program at the High School Auditorium brought many fine words of praise as did their effort to make many children happy as possible at Christmas with their fine collection of toys.

The members of the Farm Shop classes have been working on feed racks which will be taken to the ranch in the near future.

The members are holding a meeting tonight and the "dope" is, that they will be presenting a play for the school in the near future. The boys have several short humorous skits on hand and will soon blossom out as actors of the first class.

The farm group of students have been working on National Defense the past few days. They are collecting all the baling wire around the farm and baling it for future use. Others are sewing and patching sacks as it is indicated that there will be a decided shortage in burlap sacks in the future.

The boys at the Jacks Valley Ranch have had a real job on their hands the past three or four weeks with the deep snow and all the school owned beef cattle, purebred Morgan mares and colts, weaner calves, sheep and pigs to feed during the storm period.

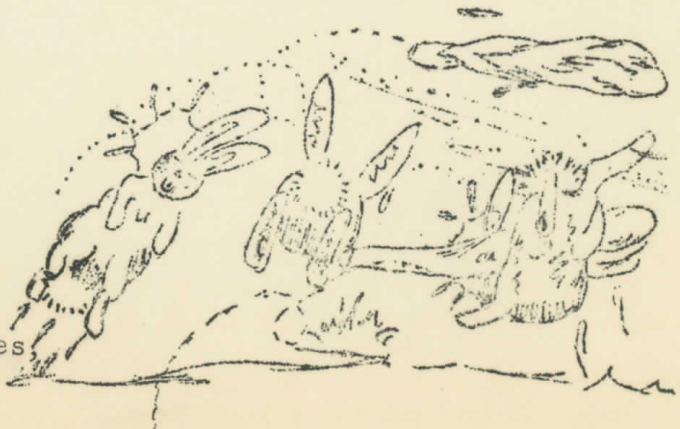

The boys have done a swell job and the reports are that all the stock are looking better every day.

JACK RABBIT HUNT

When the snow was the deepest and it was plenty deep up in the valley the boys spent an afternoon hunting jack-rabbits. The Agriculture Instructor, Duke Wellington and Mr. Barsty, ranch foreman supplied the guns and ammunition and the rabbits really were the victims of a blitzkrieg. Each boy at the Jacks Valley Ranch got to use the 12 gauge shotgun and the twenty two rifle for his share of the sport. Some of the more timid souls traded their shot gun shells for twenty two shells and thereby missed the thrill of the big "bang" and the shots at running rabbits.

Every boy got at least five jack rabbits and the grand total was almost fifty of the long eared tribe.

Boys who took part in the afternoons hunt were: Donald Cobb, Ram Evans, Harry Kennedy, Edwin Broncho, Walter Johnson and Lester Tom. The Ranch crew plan to have another hunt before the snow is gone.

have been very busy most of the time except Yard Bird, who is always thinking of Margaret somebody. At times his hammer gives him a good "whack" on his fingers and then you should hear him. Such perfect English. "Hawkshaw" always looks forward to one certain pair of shoes. I just wonder why.

Good luck to all. Hope to have more news from the shoe shop next time,

CARPENTER SHOP NEWS

The boys are busy most of the time working on various jobs, especially in Mr. Crawford's office have we done a good job.

Before the young ambitious boys started to repair his office, it was similar to a rat's nest, but now that it has had the once over by the senior carpenter boys, you can see a considerable change. We would not be surprised if Mr. Tolson traded offices with Mr. Crawford. Any way, we are very proud today that we did a fine job with the help of our instructor, Mr. Weber. We are for him one hundred per cent. With his help we will do any job just as good.

Tebe Kobe Craft

We have had a very successful year so far and the students are working harder than usual.

So far we have carved \$380.00 worth of craft articles of which the students have received 20% for their commission. This has proven to be an incentive for them to work harder and competition has been keen to see who could receive the largest commission.

OFFICE
NEWS

Superintendent, Don C. Foster returned Tuesday night from an official trip to Sacramento and San Francisco.

Miss Gladys Mitchell, a girl from Reno, Nevada has been Mr. Foster's secretary for the past week and will be here until Mr. Foster's secretary reports for duty.

John Caserta, another employee from Reno, Nevada is a new member to the office force. Mr. Caserta is at present working in the Accounting Office with Mr. Charles Pamp and Mr. Bill Oliver.

The Indians at Ft. McDermitt are working hard and making so much money, that a new safe was recently sent out to safeguard their money and valuable papers.

Eloise Louis pulled a fast one on us, by marrying Allen Lovine on January 19, 1942 at Reno, Nevada.

We all wish the newly-weds all the happiness in the world and only hope that "Swede" does not have to leave for the army too soon.

A recent law made promotion possible for many deserving employees and these promotions will become effective soon.

Walter Condon, Marshall Woodward Leland F. Strait, John T. Moore were recent agency visitors.

Lenora Scott was presented with a big box of candy by the Construction Department Wednesday morning and treated the office force with the delicacy. How does she rate?

R. R. M. Tisinger, Superintendent of Indian Education from Phoenix, Ariz. spent several days here on the campus during the month of January.

Dr. McGibbony (Indian Office), Dr. Snavelly (San Francisco) and Mr. Edward Poynton (Indian Office) were visitors last week, and conferred with the various division heads here on the construction problems regarding the Walker River Hospital.

The new bulletin board now hangs on the wall in the hall where everyone can see it without any difficulty. It is hoped that everyone cooperates with this office by notifying Miss Harrington in advance of a trip in order that trips may be combined thereby, eliminating unnecessary travel on parts of some persons, or notifying Miss Harrington when any duties need be performed at out lying reservations so that she will have them taken care of for you by some person.

The property department, consisting of Joe Carney, Martha and DANE Olney are at last situated in their new office. Joe has a huge desk, which is convenient for keeping practically everything and he says, "It is a good big desk, but I guess I will have a time finding anything". We hope not Joe.

Mr. and Mrs. John C. Haglund and daughter of Montana, have been visiting Mr. E. A. Haglund here on the campus.

Mrs. Don C. Foster and Miss Mary Kennington of Carson Indian Agency are taking a course in Nutrition at the University of Nevada.

HOME ECONOMIC DEPARTMENT

PATRICIA

**

On Monday January 4, 1942, Mr. Buell, Mrs. Slater and myself, went to Reno, Nevada and got little Patricia. That is the name of the new baby in our Practice House.

Thelma Albright

OUR BABY PROJECT

To Mrs. Slater, the Social Worker for this area, the Home Economic's Department owe a feeling of thankfulness and understanding in assisting our Department. For it was Mrs. Slater, who found a baby for our Practice House.

The Home Economic's child care course will be carried on in the practice department. Each girl will have an opportunity to care for the baby's bathing, feeding, laundering for it as would it's mother.

A committee composing: Mrs. Slater, Miss Collier the school nurse and Mrs. Crane the girls' advisor, will act as sponsors for the baby. Mrs. Slater aiding in contact with the baby's parents; Miss Collier will help with weekly visits and talks on the Baby's care; Mrs. Crane will assist with photographs as well as aiding in the carry over of such a project in placing girls for employment.

The purpose of such a course is to give the girls a practical training in caring for a young child in all it's various physical needs, it's health, including feeding, weight, height, bath and it's clothing.

This course also includes, the problems of child behavior, such as thumbsucking and nailbiting etc.

All girls have been anxious for this course and are waiting for their turn to care for the baby.

A baby was selected, who was a nutrition problem and an underweight problem as well as being ill with a bad chest cold. This selection was decided upon as the improvement of the child will be more noticeable by the girls through their proper care and training.

CARE OF BABY'S BOTTLE

After the bottle has been used it should be washed in hot soapy water, rinsed and boiled for about five minutes. The same care should be taken of the nipples.

Sponsor - Miss C. Miney

The senior class colors have been definitely decided upon. Our class colors for 1941-42 will be the patriotic "Red, White and Blue". Our class flowers are the blue and white Lupine and the Indian Paint Brush. Therefore, our class flowers will be Red, White and Blue.

Our motto: "First Americans,
United We Stand".

In the senior class the girls out number the boys. We have eighteen girls and only eleven boys.

Mr. R. H. Tisinger, Superintendent of Indian Education from Phoenix, Ariz. visited the senior class room on January 22, 1942. He gave the class a very nice talk on how we can help our country during the present emergency. Many suggestions were made on how to conserve and not waste time. I am sure that Mr. Tisinger will not find us wanting in doing the things that we feel will help our country.

Mr. Ernest Mueller also gave a nice talk to the class during the same period that Mr. Tisinger talked. He talked to us about day light saving time. He asked us to save electricity. Mr. Mueller said that we might make potato patches out of our flower beds this year. He advised us not to put out our annual. We need the money to help toward National Defense.

SENIOR MATHEMATICS

* * *

The senior mathematics for the first semester, was based on problems arising in school vocations and in every day reservation life. Among them, we studied buying and selling, making change, personal accounting and budgets, measuring of land and of ranch produce, building repair and renewal and the like.

In conjunction with the Home Economics Department, the girls kept household accounts during their stay in the Practice Cottages or as they say, "on the reservation". They also kept accounts for the school poultry project.

Every attempt was made to apply mathematics to living. The senior work was of a very high standard.

WOMEN'S CLUB

* * * *

The last meeting of the Stewart Women's Club was held on Thursday evening January 15, and used as it's motif "All Out For Defense".

After the Pledge of Allegiance with which the meeting was opened and the Club's regular business was finished, Mrs. Wellington and Mrs. Coulter gave short reports on various means of preparedness and economy. Mrs. Coulter has gathered a great deal of interesting information on defense gardens.

The guest of the club was Miss Sarah Lewis, Dean of Home Economics of the University of Nevada. Miss Lewis spoke very fully on the ways and means in which we can economize in our homes.

Refreshments were nicely served and seemingly much enjoyed by every one.

It was the consensus of opinion that the evening was very profitably spent.

JOINED THE MARINES

* * * * *

Raymond Wilson a 1941 graduate of our school and Lester Mike a graduate of this school in 1940 left one day last week to join the United States Marines. We wish you all the luck boys.

GIRL SCOUTS

* * * *

Troop 1, made and sold 14 Xmas wreaths during the holiday season.

We also have our new Troop Flag and our American Flag of which we are proud.

GIRL SCOUTS

* * * *

A new troop was formed for the girls in the 6th, and 7th. grades, under the leadership of Florence Meyers and Sara Lori. We hope to have every member registered before long. Our classes are beginning this week. Our greatest problem is how to earn money for our dues and other things necessary in our scout work.

Troop 1 and Troop 11, sewed, mended and dressed some thirty dolls and toy animals for distribution among needy Indian Children during the Xmas holidays.

RED CROSS

* * * * *

The sewing division of the RED CROSS, are making surgery suits for the doctors of the Emergency Hospital Unit of Carson City, Nevada. To date, they have completed 9 layettes, 33 crib blankets, 19 dresses, 116 hospital bags, 32 wool jackets and caps, 23 rompers, 8 bath robes, 6 surgery suits.

The seventh and eighth grade girls made most of the crib blankets and hospital bags. The older girls have offered to do Red Cross sewing but no material is available until the new shipments arrive.

The knitting division has been busy too. They have completed 13 sweaters 6 pair of socks, and 8 pair of mittens.

We are proud of the work done so far but the demands on the Red Cross will be greater this year than ever before and much more work will be expected from each Chapter. We can use more workers.

The sewing division meets every Tuesday evening at Mrs. Smith's apartment and the knitting division meets every other Tuesday at the homes of various members. Come and join us. You will be welcome.

"FLASH"
"MYSTERY AT MIDNIGHT"

"Mystery at Midnight" (A Mystery Play in Three Acts) will be staged by five senior girls and five senior boys before the close of the school year.

We will be able to tell you just who will take part in this production in the very near future. For a thrill, suffice to say at this time, in all the snow has been fun. you do not want to miss this "thrilling play". Please watch for the date.

TRADING POST

Miss Jane Jones was in Death Valley last week. She went there to check on the Trading Post.

Betty Cleveland and Dorothy Amora are again working at the Trading Post after nine weeks of Home Economics. Geraldine Smokey and Ina Sharp are now taking home economics after their nine weeks of successful work at the Post.

For the month of December \$775.00 of purchases were made from Agencies around this area. More craft was produced and sold by Indians during the months of December and January than any month during the year.

The inventory of January 1, was completed. Total stock in Stewart and Death Valley amounted to \$3,916.20.

The Tebe Mobe has just sent in their craft work made during the last month. It was a collection of beautiful carvings. Mr. Forbusch is doing nice work with his students.

E C A NEWS

The store has been "sorta" under the weather by the snow and mud brought in by the 'not too careful' Carson Indian School boys and girls.

The boys have gotten many hours of E. D. and the girls have gotten many face washings but all in all the snow has been fun.

The store, as compared to the three months prior to December fell off in it's income. Probably the fault was due to these serious smashes. Boys buying their girls nice presents and the girls the same, but this month the sales have increased considerably - Thanks to all the store customers.

MISSION NEWS

Word has been received from the mission headquarters in New York that the stained glass window which has been promised as a memorial to the lady who started the mission here, is completed. We expect that not long from now we will have it installed in the front of the mission.

Miss Corey and Miss Underwood have been busy writing "thank you" letters to people for Xmas. presents that were given to the students here.

We students have a feeling of gratitude toward Miss Corey and Miss Underwood for what they are doing for us.

WAR TRAINING COURSES

In the January 15 issue of "Indian Education" a fortnightly publication edited by Mr. Willard W. Beatty, Director of Education, U. S. Office of Indian Affairs, there appeared an article entitled "War Training Courses" in which authority was given the superintendents of the various Indian Training Centers to enroll to the limit in such courses as would give specific training for defense activities.

In accordance with this idea of Mr. Beatty's, on Monday, February 2, 1942, we are starting a class in Auto Mechanics which is planned and designed particularly to give training to students between the ages of 17 and 24 inclusive, and of such a nature as to be helpful in obtaining employment in a defense industry or should the student enter the armed forces this training would tend to give him a better classification so that he might possibly take advantage of the specific training given those who have had the background either in training or experiences to enable them to make use of such training.

This class will be conducted in the auto shop of the Carson Boarding School from 1:00 P. M. to 5:00 P. M. each week day and will be taught by Mr. Mitchell Azparren of Minden, Nevada

and will be a part of the National Defense Training Program being carried on here.

In addition to the theory and actual practice, special related work will be given also.

The opportunity to enter such a class should be praised highly and considered a special privilege, for it is an opportunity to obtain training such as might ordinarily cost a considerable sum of money and this is being offered at no cost to those who will take advantage of it.

Those chosen for the course here at Stewart are as follows:

Seniors

Harlan Snooks	George Murphy
Firmstone Hilpert	Ernie Anthony
Chester Jack	Victor Brown

Juniors

Robert Aguilar	Stannard Frank
Cecil Christy	Robert Harrison
Donald Jones	

SENIOR CLASS OFFICERS

President	Bertrand Keliaa
Vice President	Alden Springer
Secretary-Treasurer	Marjorie Stevens
Sergeant of Arms	George Murphy
Representative to Student Council	Victor Brown
